EMPEROR MAY TRY TO LIFT CUP

RUMOR THAT HE WILL CHAL-LENGE FOR AMERICA TROPHY.

Has Had His Eyes on the Cup for Years and Has Been Planning to Build & Boat and Race-Letter in New York Yacht Club Asking for Information.

Something is doing about the America's Cup and it is the opinion of many well informed yachtsmen that a challenge will come soon from some club on the other side of the Atlantic for a race to be sailed next season. There has been lots of talk about the famous old cup for some time and several names have been mentioned as possible challengers, but at this season of the year there are always reports of

It has been an open secret for some time that the German Emperor has had covetous eyes on the Plue Ribbon of the Sea. He has for some years been building a navy, booming the construction of merchant vessels and taking a great interest in yachting. He has carefully followed the racing in this country, in British waters and at home, and it is said that he is thoroughly familiar with all the models of famous boats that have been produced by the best designers in the world.

Now some yachtsmen think that a challenge is coming from the Kaiserlicher Yacht Club and that it will name a boat owned by the German Emperor as its representative. These yachtsmen are men well posted in club affairs.

Yachtsmen who have been on the other side this summer have returned recently with rumors of coming challenges, and from the way they have talked it would seem that they know more than they care to ex-Commander Hebbinghaus the naval attaché at the German Ambassy, in Washington, said: "It is understood in Germany that there will be another contest for the America's cup next year." He gave that as a reason why the Emperor would not offer another cup for an ocean race. He declined to say any more about the rumor, but he has been with the Emperor and with other German yachtsmen and knows pretty well where the challenge is coming from but naturally he cannot give this information

Soon after Commander Hebbinghaus arrived here Commodore Gerry returned. He too had been among German vachtswould probably come from Germany. These reports and other signs have led yachtsmen here to think that the time has come for the Emperor to make his effort to "lift" the cup.

Yachting is a new sport in Germany. It is only about ten years since interest began to be taken in yachts, and the Emperor has done much to foster the sport. He first purchased the old cup challenger Thistle and raced her. Then he had a boat built from designs by George L. Watson, which was named Meteor and which was raced against the Britannia, owned by the Prince of Wales, now King Edward VII.
The Meteor was a successful boat. Then
be had his present Meteor, a schooner, built

he had his present Meteor, a schooner, built from designs by A. Cary Smith, and she has been raced with more or iess success.

While he was getting yachts wealthy Germans purchased yachts here and in England, and these have been studied and raced. Among the boats that have gone from here are the Lasca, Navahoe, Yampa and Aleew and forty and fifty footers have been built by Herreshoff and shipped across the coean on steamers. Small vessels have also been built by Crown-ushield and other designers here, and from the designs of Watson, Fife and Mylne boats have been built for the Germans in England.

of Watson, Fife and Mylne beats have been built for the Germans in England.

It is said that the maiser has had the plans of all the Cup defenders and challengers, and that he has all the data about those boats that it is possible to have. All the plans of the best racing boats in any part of the world have been turned over to a designer in the navy, who has made a careful study of them. He has figured out the weak points of each model, and, according to reports, is prepared and, according to reports, is prepared to turn out a boat which in his estimation will be a world beater. Now, this is the way that the Germans built up their merchant marine. They got plans and studied them and have built such boats as the Kaiser Wilhelm der Grosse the Deutschland and other fast vessels and they thick that and other fast vessels, and they think that they can be just as successful with their yachts. There is no well known yacht designer in Germany and that is the only reason that some think that it is early yet

to expect a challenge.
Yachtsmen generally were reluctant to
talk of the challenge from the Emperor,

talk of the challenge from the Emperor, because they know nothing about it yet, but they thought it would be acceptable, if only for the sake of variety.

Ex-Commodore Robert E. Tod of the Atlantic Club, also a member of the New York Yacht Club, who was a participant in the transatlantic race, said Commander Hebbinghaus's statement seemed to have a more substantial foundation than mere idle hearsay. Although a friend of Sir Thomas Lipton, he would be glad to see the German Emperor challenge for the the German Emperor challenge for the cup, and it would give him great pleasure to see Herr Tietjens come over as his per-

sonal representative.

Designer William Gardner said he hardly thought the Kaiser would challenge, as there was no designer in Germany equal to the task of producing a yacht able to compete for the gup.

was no designer in Germany equal to the task of producing a yacht able to compete for the cup.

H. de B. Parsons, a member of the regatta committee of the New York Yacht Club, said nothing had been heard officially of the Kaizer's intention to challenge.

The New York Yacht Club has a letter from a foreign yacht club asking if it would accept a challenge for a race for the America's Cup under the club's present rule of measurement. This letter, it is understood, will come before the members of the club at the regular meeting, which is to be held in the club house next Thursday evening. At present the officers of the club decline to say anything about the letter or to say from what club it has been received, but as the letter seems to be a formal one and to comply in every way with the requirements of the club, it is

probable that the club will make an official stand for or against the present rules.

It will be remembered that soon after the Shamrock III. had been defeated by the Reliance Sir Thomas Lipton wrote to the club asking if the club would accept a challenge under its amended rules. The committee appointed to answer the letter replied that the club did not cross bridges until it came to them, and that if a challenge was received from some club naming conditions under which the races were to be sailed the club would decide what it would do. It also told Sir Thomas that the deed of gift did not recognize individuals, but that all negotiations for a challenge must be made through some club. Now that a club has asked for information it would indicate that some one is thinking of challenging. probable that the club will make an official EX-PRIEST WORKS AS LABORER

So Said Judge Newburger in Sentencing Bigamist Who Deserted His Six Children. Francis H. Fritz, who said he was a brewer and lived at 1871 Seventh avenue, was sentenced to State prison yesterday by Judge Newburger for bigamy. Four years and ten months was all that the law allowed and Judge Newburger gave it to

him.

Fritz contracted a common law marriage twenty-three years ago with Marie Fritz, who was then 16 years old, and who has since borne him six children. She is now a janitress at 146 West Seventeenth street. He lived with her until December last, when he was married to Lillian Holdenried of 102 West Twenty-ninth street by the Rev. F. J. Snyder of 237 Second avenue.

It was shown in Fritz's defense that he had written to some German newspapers asking whether he was free to marry the Holdenried woman, not having been formally married to the mother of his children. Judge Newburger, in sentencing Fritz,

Comptroller Grout submitted yesterday to the Board of Estimate a report showing that the cost of finishing, furnishing and equipping the new Hall of Records would be \$1,329,000. This will bring the total cost of the building up to \$7,836,146.
"Will that be the last money needed for

the finishing of the building?" the Mayor "Practically, yes," replied the Comp-

troller, "and I want it understood that most of the expenditures, in fact, all but about \$1,500,000, were authorized in 1897." John C. Coleman, counsel for the West End Avenue Association, asked the board for an appropriation of \$100,000 for the improvement of West End avenue by turning it into a parkway. Commissioner Grout said he objected to making a parkway of the avenue at the expense of the city, an opinion that was shared by the Mayor. Probably the most litigated boy in the country is Milton Gordon, 5 years old, son of Rachel and Isidor Gordon, who separated shortly after his birth and have been fighting for control of him ever since. Appeals to the courts by both parents have been frequent, on habeas corpus and other proceedings, until almost a dozen Judges have had the matter under consideration. More than a year ago the boy was given into the mother's custody, and this finding was upheld on appeal. Afterward Justice bischoff decided that the father was entitled bischoff decided that the father was entitled to see Milton once a week, and yesterday the whole affair came up before Justice Truax again, as the mother wants this order modified. She says that the boy has a great aversion for his father and screams when he is taken to see Gordon. She asked Justice Truax to rule that Gordon may not have the child removed from her custody, though he may see Milton at her house.
